Action for
Children's Future
2025
— For Junior and
High School Students —

Toward Society of “Children First”

Tokyo Metropolitan Government will create the society filled with children's smiles.

- Children can grow up healthily and in their own way.
- People in the whole society value children.
- People can raise children without anxiety.

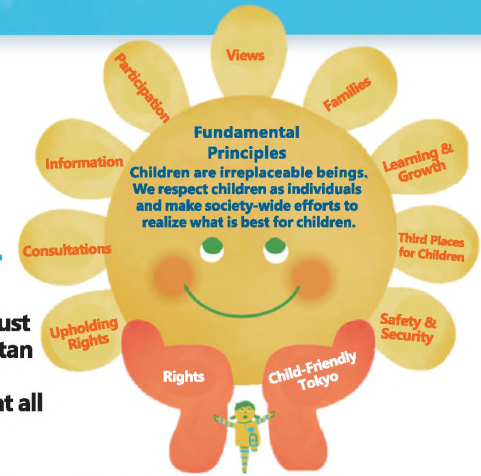

We will value the views of children as the main characters.

- We listen to children's views at their familiar place.
- We collect views of junior high school and high school students by making use of SNS.
- We ask for the publicly selected monitors to reply to web surveys on the initiatives promoted by the Tokyo Metropolitan Government.
- The staff members of the Tokyo Metropolitan Government will visit junior high schools and high schools to provide lectures on policies for children.

Let's learn about the Tokyo Metropolitan Government Basic Ordinance on Children.

Children are members of society. Children have a number of rights just as adults do. The Tokyo Metropolitan Government Basic Ordinance on Children was created to ensure that all of you can live happily.

- Children are irreplaceable beings and main characters of rights.
- Children's happiness should be prioritized.
- Children's views should be respected.

Children's Symposium

We create opportunities to learn the Ordinance and exchange views.

All the children who participated in the symposium exchanged views on "Child-Friendly City".

We will connect children's views and thoughts with our future actions.

Project for participation in decision making by junior and high school students

Junior and high school students discussed about "enrichment of real experiencing activities for the future" and proposed creation of system for work experience to the Governor.

Discussed for about six months

Proposed to the Governor

What are the problems that junior and high school students suppose?

There are insufficient opportunities of work experience for junior and high school students.

Most of work experience is just for visiting and lack of reality.

We have to visit various websites to get information.

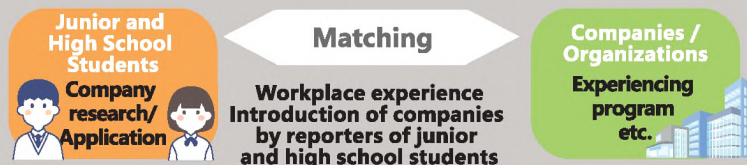

We want to create comprehensive website of work experience with a wide range of options where junior and high school students can have real work experience.

By reflecting the contents of proposal to the budget of Tokyo Metropolitan Government, we will connect them with the future action.

We will support work experience of junior and high school students.

We will create "Work Experience Platform (tentative name)" as the website to match junior and high school students who desire to have work experience and companies and organizations.

Establishing the website "Work Experience Platform (tentative name)"

In addition to these efforts, we will make efforts to connect the views of children we heard in various scenes with the future action.

State of visit lecture
(Oshima Dai-ichi Junior High School).

I want the events that I have never experienced in my life to be held.

I want the status of counselling to be managed by making use of AI so that I can take counsel more easily.

We will create the opportunities where everyone can challenge various experiencing activities.

We will create a safe and highly convenient environment for chat counseling that makes use of AI.
